

Exercises 27

CNN - 1000

1. Classify the Categories of **CIFAR10** dataset, Using CNN

Points:

- **Hyperparameters: Desired!**
- **After training, evaluate the test data!**
- **Finally predict a desired image (out of dataset)!**

- **Test Accuracy must be more than 90%**

Marks: Loading and Preprocessing (300), Compile(100), Fit(100), Evaluate(200), Predict(300)
